estimated cost of the first year's expenses, together with the expense of equipping sultable rented quarters for carrying on the all-round work of the Assochtion.

There are many reasons why every business man in Maysville should con-tribute at this time to the effort to establish a Young Men's Christian Association in our city, and we suggest a few for their thoughtful consideration:

First-Because there are in Maysville 1,000 young men between 16 and 26 years

of sge.

Second—Because these young men are the most important factors that enter into the problems of the social, political and commercial life of Maysville.

Third—Because there are a large num-

ber of saloons and other pisces of vicious resort in Maysville, dependent almost en tirely upon these young men for patron

age.

Fourth-Because to compete with thes resorts for the lelsure hours of young men there is needed s place open day and evening as a counter attraction, where all young men can find good company and elevating recreations. To numbers of young men in Mnysville there will be no other alternative—either the saloon or the Association.

Fifth-Because the Association will not only provide a refuge for the tempted and home privileges for those away from home, but will also provide young men generally with opportunities for physical, mental and social culture under Christian auspices and supervision.

Sirth—Because it is easier, be

less costly to keep a young man from failing than it is to life him up from the slums. Remember the "stitch in time" and "the own e of prevention." While tion makes it its chief nim to keep young

men from falling.

Seventh—Because on Christian Association," and works for nothing short After an illness of about three months of the conversion of young men to Jesus manent reformation and security be ob-tained.

Eighth—Because it is a work that will
